

## **Section 2 – Gas Plants**

This Section consists of tables, prepared on the basis outlined in Section 9 (Appendix).

Provinces are in the ranked 2006 NGL order. Detail tables in this Section are arranged alphabetically.

Tables 2-3 and 2-4 merge specification products and mix components for each NGL product, showing comparisons and trends between 2005 and 2006.

Tables 2-5 through 2-9 are ten-year comparative tables for total NGL and each of ethane, propane, butanes and pentanes plus. The tables cover 1997 through 2006, a ten-year period.

Table 2-10 and 2-11 are multi-page tables. Table 2-10 shows the details for individual gas processing plants in the United States and Table 2-11 shows details for plants in Canada for 2006.

The tables in this Section are as follows:
